

Product ID:
RGL30

Product Name:

Single Leg Webbing Tie Back
Lanyard & Shock Absorber

A - B	A - C	A - D	A - E
0.6m	1m	1.3m	1.7m

The RGL30 has been designed to loop around larger structures/anchor points, or for lanyard shortening. Inner loops are colour coded for ease of connection and visibility.

We use 32kN polyester webbing and a water repellent coating to manufacture this product which helps give the product a longer life. This lanyard should be used when the operative is working from a static position, connected to a fixed anchor point.

If movement between anchorages is required, a twin leg lanyard should be used (RGL29) to provide a constant protection.

Accredited to:

EN 360:2002

Material:

26mm water repellent polyester 37kN

Fittings:

RGK2P and any compatible EN 362 connectors

Max arrest force:

<6kN

Length(s):

1.8m (including additional connector)

Features:

Shock Absorber

Colour Coded Inner Loops
