

PRODUCT SPECIFICATION

250kg Battery Powered Chain Hoist

The LiftinGear Battery Powered Electric Chain Hoist is a lightweight, portable lifting solution weighing just 9kg. With a 250kg capacity, rechargeable 18V battery, and dual control options, it delivers safe, efficient lifting without mains power. Compact and versatile, it's ideal for remote, off-grid, or light-duty applications where flexibility and convenience are essential.

SUMMARY

- Lifts up to 250kg with high-strength T-grade alloy chain
- Lightweight 9kg design for portability and easy handling
- Cordless operation via 18V rechargeable lithium-ion battery
- Dual controls: 2m pendant + 50m wireless remote
- Smooth speeds: 3.5m/min lift, 4m/min lower
- Dual braking system for maximum safety
- 40% duty cycle, suited to light, intermittent use
- Supplied with durable storage case
- Backed by a 12-month warranty
