

Sliding anchor point for metal I-beams with a width between 105 and 310 mm.

Easy and intuitive width adjustment using a double button. Smooth sliding thanks to protective polyamide material coverings on the clamps.

Robust steel attachment point that can rotate and tilt. Load-bearing structure constructed from lightweight aluminum alloy.

Certified as an anchor device EN 795/B and TS 16415 for two people and as an anchor connector ANSI Z359.18 Type A.

Equipped with NFC TRACK chip for digital identification.
