

Product ID:
RGA4

Product Name:
Fall Arrest Block with
Recovery Winch - 15m

The RGA4 is a three way retrieval block fitted with an up/down winch mechanism and the standard fall arrest capability.

This unit can be used as a standard fall arrest block, but in the event of a fall the operative can be winched up or down to safety almost immediately. The winch function is for use only as a recovery provision and not for access/egress. This arrangement must be backed up with an independent separate fall arrest system, and a rescue provision that is also separate to the winch. The RGA4 is supplied with galvanised wire cable.

Accredited to:
EN 362: 2002

Line material:
5mm galvanised wire
cable

Case material:
Alloy

Connector:
Double action high
tensile steel alloy

Weight:
11.4kg

Max. user weight:
140kg

Max. force:
<6kN

Handle turn ratio:
1:10

Handle force ratio:
1:10

Features:

Built in fall indicator

Recovery winch
