

Lifting & Lowering Kit 50m

WK56

Basic kit for hauling and lowering by hand

Uses:

Raising loads
Lowering loads
Positioning loads

Tornado lifting device

- Functions as a pulley when lifting for minimum friction.
- Provides friction for controlled lowering, simply tilt the device to lower.
- Locks if released when lifting or lowering.

The kit comes complete with:

- Tornado lifting device
- 11mm diameter rope with sewn terminations for safety & strength
- Double-locking large hook for ease of load attachment
- Durable, load rated KARI storage bag
- 60cm Protected sling
- Screwgate oval karabiner to attach to anchor points

See Technical Information Note for more detail on how to use the Tornado.
