

• **In addition to routine checks for each use, PPE should regularly undergo a detailed inspection by a competent person.** Petzl recommends an inspection every 12 months and after any exceptional event in the life of the product.  
 • **PPE inspection should be conducted with the manufacturer's Instructions for Use.**  
 Download the instructions at [PETZL.COM](https://www.petzl.com).

## KITS

### User information

Surname

Address

Identifier

### PPE information

Model

Serial number

Year of manufacture

Date of purchase

Date of first use

**Manufacturer:** Petzl, ZI Cidex 105A - 38920 Crolles - France

				N/A
Good condition (G)	To monitor (TM)	To repair (TR)	Do not use, retire (R)	Not applicable

### 1. Known product history

Usage conditions or exceptional event during use (examples: fall or fall arrest, use or storage at extreme temperatures, modification outside manufacturer's facilities...):

				N/A
---	---	---	---	-----

### 2. Preliminary observations

- Verify the presence and legibility of the serial number and the CE mark.
- Verify that the product lifetime has not been exceeded.
- Compare with a new device to verify there are no modifications or missing elements.

### 3. Inspection of each component

- Inspect each component separately, using the dedicated procedures available on each component's product page.

**Comments (detail here any defects found on the product and accomplished tasks)**

### VERDICT

- Product **fit** to remain in service
- Product **unfit** to remain in service
