

NLG Aero Pouch™

Product Code:
101400

Max Load:
5 KG / 11 LBS

OVERVIEW

The Aero Pouch™ is the ultimate way to safely secure small items such as nuts, bolts, screws and nails when working at height. The innovative closure system allows easy access to the contents but will automatically close in the event of a fall or if inverted.

NLG ID™ Serialised and safe

Simply scan the NLG ID tag with your phone to instantly access certificates, instruction videos and log inspections. (See Specification if included).

Third-party tested and certified

Independent laboratory load testing certificates and Declarations of Conformity are available on request. Please contact team@neverletgo.com.

DESCRIPTION

The Aero Pouch™ is specifically designed to retain small parts, such as nuts, bolts, screws and nails, from being accidentally dropped from height. The innovative closure system allows easy access to the contents but will automatically close in the event of a fall or if inverted.

The Aero Pouch™ utilises Mega Mesh™ side panels to improve visibility drainage and ventilation. Two external D rings which are load-rated anchor points allow for secure attachment of lanyards or tools.

The universal Quick Connect™ buckles on the rear of the pouch means that it can be quickly and easily fitted to a belt, harness or rail.

The Aero Pouch™ is the safest option for handling small parts on-site and is an essential item for anyone working at height.

FEATURES

Unique valve system allows for easy access to contents but prevents anything from falling out

Dual-layer Mega Mesh™ side panels provide improved visibility, drainage and ventilation

Includes 2 integrated anchor points for convenient tool lanyard attachment

Universal fit with Quick Connect™ buckles for easy attachment

Rear D Ring allows for attachment via carabiner

INSPECTION

In addition to routine checks before each use, all equipment should undergo regular detailed inspections, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for a thorough inspection.
