

Anchor Pin Sling Set

The Pin Anchor Sling Set is a robust lifting device manufactured from several cast components. The lifting clutch is designed to fit only the Pin Anchors and Recess Formers for the chosen load category. This in built safety feature, ensures that mismatching of load groups cannot occur.

Product Code	SWL over 3 Legs (kg)	Length (mm)	Description
SLINGSET0600	2000	1500	3 x 1.3 tonne Clutches
SLINGSET1200	4200	1500	3 x 2.5 tonne Clutches
SLINGSET1500	6300	2000	3 x 5.0 tonne Clutches

Routine Inspection and Retirement

Pin Anchor Ring Clutches & Combination Ring Clutches should be inspected before each use by a competent person. The inspection should involve a visual check for obvious defects, deformation of the oval ring or lifter body, cracks and obvious excessive wear. If any of these defects are found the lifting device should be discarded. If they are bent do not bend back into shape. Use of the Ring Clutch must not commence if any of the identification markings are worn away and no longer visible.

In addition the Ring Clutch & Combination Ring Clutch should be inspected and tested by a recognised organisation at least every twelve months.
